

NOTES

Digital Learners @mattquevava

Digital sprawl → things find their way deeper + deeper into our lives.

terms like digital natives + digital immigrants are going by wayside because digital enhancements are affecting everyone, regardless of age.

The RESPONSIVE OS

Purpose → a vision for today + tomorrow

People → who listen + learn

Process → agile [what are you trying?]

balance experimenting w/ knowing kids in context

Pilgrimage → since 1980, kids mobility has drastically changed - makes sense they connect online.

Communicate vision to parents of digital use → this is how kids learn. Utilize best tools to teach kids about faith.

levels the playing field between teacher + learner.

* Listening is the most needed skill for leading digital kids. *

the digital learner prefers visual:

Images, audio, video - before text

My Response: digital perspective for curriculum

[add digital expert to team]

New large group format. circles / No stage

bit.ly / kidminOS → for downloadable chart
